I am a passionate artist, crafter and designer. My career objectives include improving myself within my abilities and inspire others to pursue their dreams, with a kind heart.

With the intentions of spreading a warm and comforting feeling through my work, I always make use of soft and nostalgic visuals. It is what I love, and how I show my love to the world.

I am particularly focused in growing my brand, dedicating full time working on the related projects by creating new content while expanding my learnings. The freedom to be imaginative and show my skills authentically is what I most appreciate in my career.

Bachelor of Information Technology in Game Design and Development

january 2015 - june 2018 in São Paulo, SP

Curso de Jogos Digitais no Centro Universitário das
Faculdades Metropolitanas Unidas (FMU)

Studied game development, ludology,
script writing, character design, digital art,
programming, gamification, level design,
project management and branding.

business owner (since 2018)

Owner of the "poofties" brand and its craft store, "shy bunny". Makes handmade plushies and accessories by needle felting and sewing, as well as illustrations that are printed and assembled as a variety of stationery goods.

web designer (since 2016)

Designs and arranges unique website layouts, coding HTML, CSS and Javascript. Experienced in developing static and dynamic web pages, as well as integrated platforms, web tools, web hosting and file storage systems.

graphic artist (since 2014)

Makes artworks and graphics combining drawing, collaging and photography editing techniques, using them for creating multimedia pieces.

game developer (since 2015)

Character designer, artist, script writer, composer and programmer for all the interactive game projects related to the "poofties" brand. Works with both PC and mobile devices.

healing writer (since 2017)

Writes prose, poetry and thought texts focused on self-care reminders, personal growth advice and tips for slow living through mindfulness, gratitude and convalescence.
